Signs showing roadwork speed limits shall be displayed only while the restriction applies and for the duration of the need. Roadwork speed zones shall be the minimum length required for the protection of workers and the travelling public. 40km/h and 60km/h roadwork speed zones shall be located so that the zone commences no closer than 100m before the start of work and shall end at least 50m past the worksite. The desirable length of roadwork speed zones shall apply and roadwork speed restriction signs shall be erected a minimum 600mm above the ground to the underside of the sign.
